DUEVEL Venus loudspeaker

DESCRIPTION

A great deal of technological sophistication and craftsmanship are apparent in every pair of Duevel loudspeakers. The finish is superb, and the overall look is distinctive and handsome, in a decidedly unconventional way.

The Venus is slightly over 3 feet tall and is in three sections. The six-sided rear-ported bass enclosure reduces standing waves, and support an 8" carbon-fiber woofer. The woofer directed toward a flying-saucer-shaped sound radiator radiates evenly over 360 degrees. The radiator is suspended on six narrow, cylindrical metal posts above the woofer, and sits closer to the soft-dome tweeter, which radiates downward into the radiator. The radiator is shaped slightly differently on top and bottom to reflect soundwave differences between the two drivers.

Nothing prepares newcomers to the experience of listening to an omni-directional loudspeaker. The Venus immerses the listener in the music, allowing anyone else in the same room no matter where they are located, to share the same experience.

DUEVEL Venus

loudspeaker

SPECIFICATIONS

WOOFER

Type	Carbon fiber
Diameter	22 cm / 8.6 in
Magnet	110 mm / 4.3 in

MID/HIGH FREQUENCY

Type	Textile
Diameter	34 mm / 1.3 in
Magnet	10 mm / 4 in

Crossover	Phaselinear
Impedance	4 Ohms
Sensitivity	88 db SPL
Power handling	100 W RMS
Bandwidth	40 - 23 kHz

DIMENSIONS AND WEIGHT

Weight	20 kg - 44 lb
Dimensions (w x h x d)	28 x 26 x 97 cm 11 x 10.2 x 38 in.

AVAILABLE FINISHES

In stock : Bubinga - Black horn
Other finishes : contact your local dealer

WARRANTY

North America : 5 years
